

A photograph of a water treatment plant at sunset. The sky is a mix of blue, orange, and purple. In the foreground, there are large metal structures, possibly part of a filtration system, with a bright light source creating a starburst effect. In the background, there are several tall, thin towers and a body of water reflecting the sky. The overall scene is industrial and serene.

# Innovative products for water treatment

Product List - Iberia

 **Univar**Solutions

# Clean water is our common goal

But getting water clean is a complex process that requires the right set of chemicals and organisms to remove unwanted contaminants.

At Univar Solutions, we understand the challenges in maintaining and supplying the world with water. Chemicals for water treatment play a crucial role in improving the results and the processes that exist today.

Univar Solutions offers a **broad portfolio** filled with functional ingredients and products for different types of water purification. Our Supplier branded range is complimented by Univar Solutions' trusted portfolio of **CAFLON™** Flocculants, Modified Acids & Alkalis, Surfactants & Chelates. We combine outstanding **technical expertise** in chemical distribution with reliable service and well-planned logistics. Proudly we represent several of the world's leading chemical manufacturers.

We value strong and honest collaboration with our customers so that we together can find the solution that suits you best by searching and **solving the root cause** of the challenge that presents itself.

## AMINES/STEAM CONDENSATE CORROSION CONTROL

Diethanolamine - DEA

Methoxypropylamine - MOPA

Monoethanolamine - MEA

## BIOLOGICAL ENHANCERS

BG Max® (biogas optimization)

BioRemove® (Bacterial cultures)

Odorcap® (sulfur reduction)

## BIOLOGICAL NUTRIENT BALANCE

Glycerin

Mono Propylene Glycol (MPG)

Sodium Bicarbonate

## COAGULANTS

Aluminum chloride

Ferric chloride

Polyaluminum chloride

## CORROSION INHIBITORS

Sodium molybdate

## DECHLORINATION/PEROXIDE REMOVAL

Hydrogen peroxide

## DEPOSIT/SCALE CONTROL

Citric acid

Phosphonates

Sulfuric acid

## DISINFECTION

Hydrogen peroxide

Peracetic acid

## FLOCCULANTS

anionic, cationic, amphoteric

#### FOAM CONTROL

Block Copolymers

Dow silicones

Xiameter®

#### ION EXCHANGE RESINS

Ion Exchange Resin

#### MEMBRANE MAINTENANCE

Citric acid

EDTA chelant

Sodium hydroxide

#### MEMBRANES/VESSELS

RO Membranes

Vessels

NF Membranes

UF Membranes

#### METAL PRECIPITANTS

Sodium hydroxide

#### ODOR CONTROL

Hydrogen peroxide

Sodium hydroxide

#### OXIDIZERS

Hydrogen peroxide

Peracetic acid

#### pH ADJUSTMENT

Caustic soda/sodium hydroxide

Citric acid

Sodium Bicarbonate

Sodium Carbonate

Sulfuric acid

#### PHOSPHONATES

ATMP

HEDP

PBTC

#### PHOSPHOROUS REMOVAL

Aluminum chloride

Ferric chloride

#### SURFACTANTS

anionic/non-ionic/cationic
