	Alginates		●
	Carrageenan		●
	Gelatin		●
	Gellan gum - high acyl		●
	Pectin		●
	Xanthan gum		●

\*Organic compliant ingredients are not organic certified but rather are approved by the Canada Organics Regime to be permitted in multi-ingredient products with an organic claim. Organic compliant ingredients can make up to 5% content in products containing 95 - 100% organic certified ingredients or up to 30% content in products containing 70 - 95% organic certified ingredients where an organic or made with organic ingredients claim is made. For more information on the organic claims that can be made in compliance with the Canada Organics Regime, please visit: <https://inspection.canada.ca/food-label-requirements/labelling/industry/organic-claims-on-food-labels/eng/1389725994094/1389726052482?chap=3#s2c3>
