

Skin Quench

Formulated sustainably with cold process technology and organic ingredients, your dry skin will be quenched with this cooling, moisturizing lotion. Featuring botanical extracts and oils which lock moisture deep within the skin, you'll feel instantly refreshed and renewed with this lotion's light and soothing feel.

ACULYN™ Siltouch Rheology Modifier

A versatile silicone-acrylate rheology modifier for a light feel in skin care applications. Suitable for cold process applications.

Cucumber Extract

This superfood imparts proteins, lipids, Vitamin C and minerals to skin. It has moisturizing properties, as well as an astringent effect which soothes skin

Marula Oil

A rich emollient and moisturizing agent which is readily absorbed, helping to relieve irritation and smooth skin.

RiFerm- BS

Saccharomyces/Rice Ferment Filtrate. RiFerm by the Garden of Naturalsolution acts as an anti-aging, anti-wrinkle and antioxidant agent. It is used to improve skin complexion.

SunCROMA™ FD&C Blue 1-C39-A220 (0.1% Solution)

SunCROMA™ FD&C Yellow 5-C69-A211(0.1% Solution)

Univar Solutions offers this suggested formulation as a representative formulation only. See the back cover or univarsolutions.com for important cautions.
