

Girls Gone Wild Spritz N Surf Spray

This is an Epsom salt-infused formula that creates impeccable, volume, texture, fullness, and hold to mimic tousled, just-off-the-beach waves. A unique approach to this type of formula as it contains specialized frizz control silicone polymers to eliminate unwanted frizz and helps condition hair in the process.

FEATURE INGREDIENTS

DOWSIL™ CB 3046 Frizz Control Fluid

Imparts superior and long-lasting frizz control performance. It brings a natural look and feel to hair and has the ability to maintain style and supports re-styling. It also exhibits multifunctional benefits such as curl retention, shine, heat protection, and enhanced hair alignment.

Epsom Salts

Contribute to creating beach waves, also providing volume, perfect for the loose wave look.

Methylal

An alternative option to volatile solvents such as alcohol. It can be used in a vast range of personal care formulations. In this formula it facilitates a clear split of the phases after shaking.

PROCEDURE

Phase A

Premix phase A until homogeneous.

Phase B

Premix phase B until homogeneous.

Phase C

Add phase B to A while stirring gently.

Girls Gone Wild Spritz N Surf Spray

#	INCI Name	Trade Name	Supplier	Function	Wt.%
Phase A					
1	Aqua	Water	Univar		Q.S.
