

A close-up photograph of a woman's face, focusing on her mouth. She has bright red lipstick on her lips. A white, circular wipe is being used to remove the lipstick from her lower lip. Her hand, with red-painted fingernails, is visible holding the wipe. The background is a soft-focus skin tone. The image is partially overlaid by a white geometric pattern of triangles on the left and bottom right.

## Magic Melting Eraser Make-up Remover Balm

We promise this will remove all traces of your weekend in IBIZA from your face. This natural, silicone-free makeup remover is very gentle and efficient, even on strong waterproof formulas. Its melting and transforming texture begins as a butter but when applied to the skin it melts to become an oil. It rinses easily thanks to **Ercawax O20 V/FD**, **Ercawax S20 V/FD**, and **Radiacid 0417**. This melting texture comes from the combination of several waxes and butters with different melting points that create a final melting point close to skin temperature. **ETHOCEL™ 100 Standard Premium** improves formulation stability even at high temperature.

The logo for Univar Personal Care. It features a stylized blue and white geometric icon on the left, followed by the word "UNIVAR" in a bold, black, sans-serif font, and "PERSONAL CARE" in a smaller, blue, sans-serif font below it.

**UNIVAR**<sup>®</sup>  
PERSONAL CARE

	Trade name	INCI name	Supplier	%
A	1 Sheanut Butter Refined	<i>Butyrospermum Parkii</i> (Shea Butter)	Kerfoot / Univar*	16.5

### Procedure (Hot process)

1. Combine ingredients of phase A together in order.
2. Heat to 85°C with stirring
3. Pour into packaging before cooling down

### Stability

Stable at least 2 months at room temperature, 40°C (still ongoing).

### Comments

- Aspect: light yellow butter, solid at room temperature
- Application: Massage gently with finger tips on eye and face, rinse off after application.
