

## Gilded Amber Illusion Eye Tint

An imaginary voyage to a luxe desert mirage. This eye tint contains two fabulous glitters, **Sachet Flash White S1531** and **Glamour Metallic Sand G002**, giving the effect of melted sand that promises to wow you! Stability is guaranteed thanks to both **ACULYN™ 28 Polymer** and **ACULYN™ 33A Polymer**, who both thicken and bring stability as well as help to suspend the glitters. They are neutralized by **AMPD ULTRA PC®**, a very safe amine especially dedicated to hypoallergenic formulas and products used near the eyes. The film former **Dow Corning® FA-4103 Silicone Acrylate Emulsion** creates a flexible film, long lasting and wash-off resistance which is perfect for comfortable long-wear color cosmetic formulations.

**UNIVAR®**  
PERSONAL CARE

	Trade name	INCI name	Supplier	%	
A	1	Water (Aqua)	Univar*	Q.S	
	2	Dissolvine® Na2-P	Akzo Nobel / Univar*	0.05
