

# Revival

The Power of Bold

## Be Bright – Buffing Cream

Micro-blasting is the new exfoliation! This buffing cream works very gently to cleanse and purify the skin. It lifts dead skin cells and refines skin texture to preserve its smooth, bright, even appearance. Not only does it feel like a soft massage, but the delicate scent of invigorating citrus fruits will revitalize your senses, stimulate and uplift your mood!

### Olivem® 1000

COSMOS approved biomimetic ingredient derived from olive oil; high performance primary O/W emulsifier with the ability to make liquid crystals. Microbiome friendly functional ingredient that preserves skin's cutaneous microbiota composition and biodiversity.

### Actigum™ CS II QD

COSMOS approved efficient thickener and suspensive agent with great sensory profile and wide pH stability and compatibility. 100% derived natural, cold processable and biodegradable.

### Cola®Lipid C

Multifunctional coconut oil-derived phospholipid. Provides gentle cleansing and foaming properties, long-lasting skin conditioning and broad spectrum antimicrobial activity while delivering a silky feel. Anti-irritation effects for skin and eyes when combined with anionic surfactants.

### Poly Suga®Nate 160P NC

Anionic surfactant polymer based on high molecular weight alkyl polyglucoside polymers. High-performance surfactant, extremely mild to both eyes and skin. Naturally derived from renewable sources, natural origin index of 1 according to ISO 16128.

### Citrus essential oils

EarthOil by Univar Solutions offers a complete range of 100% pure and natural organic citrus essential oils extracted from the outer peel of the fruit, all cold-pressed. Offer typical citrus refreshment, through invigorating, fruity and zesty scents. Well known for their stimulating and uplifting properties. Can be used in a range of formulations to support natural and wellness claims.

### Apricot Kernel Oil Crude (Organic)

Vegetable oil, cold pressed from kernels. Naturally high in vitamin E and unsaturated fatty acids (oleic acid). Known to nourish, bring emolliency and restore the hydrolipidic film of the skin. Low odor profile.

### PROCEDURE (HOT PROCESS)

- Disperse Actigum™ CS 11 QD and the pigment in water under high shear (Silverson/Ultra Turrax for 7min at 7,500rpm) until a homogeneous gel is obtained. Heat phase A to 75-80°C
- Combine and heat ingredients of phase B to 75-80°C until completely melted and homogeneous
- Once both phases reach 75-80°C, add phase B to phase A under agitation (Silverson/Ultra Turrax for 15min at 4,000-4,500 rpm)
- Cool down phase AB to 45°C under agitation
- Add phase C ingredients to phase AB in the order listed and mix between each addition
- Add phase D ingredients to phase ABC under agitation
- Below 40°C, add phase E ingredients to phase ABCD in the order listed and mix between each addition
- Adjust the pH between 5.0 and 5.5 with phase F

### STABILITY

Stable 3 months at 4°C, RT and 40°C.

### COMMENTS

- pH = 5.14
- Viscosity (spindle 6; 10 rpm; 1min) = 29,800 cPs (29.8%)
- Application: Apply to damp skin on the face and neck once to twice a week. Massage lightly using circular motions. Rinse-off with lukewarm water.
- Brownish-orange cream with particles
