

Butter Cream Shower Frosting

Indulge in this creamy buttery goodness! **EcoSmooth™ Delight**, a sensorial enhancer, creates a body wash which leaves skin soft, smooth and beautifully moisturized. We've added a healthy dose of non-comedogenic **Vaseline** to give protective, healing, and enhanced moisturizing and soothing properties. We've also added specialty oils from the East and the West; found in the heights of the Himalayas, **Dhatelo oil**, is used by locals to care for skin and hair. **Chia oil**, native to the mountains of western Mexico, is rich in essential fatty acids, especially in linolenic acid, which makes it an ideal ingredient to nourish and protect the skin. Enjoy your shower!

Procedure (Hot process)

1. Weight ingredient of phase A one by one and mix until uniform. Then add B to pre-neutralise the ACULYN™ polymers
2. Weight ingredients of phase C in a separate vessel
3. Heat phases A/B & C at 85°C
4. Add C to A/B under vigorous stirring
5. Add D to A/B/C below 45°C
6. Check the pH and adjust if needed to 6.5 with Sodium Hydroxide (33% solution)

Stability

Stable at least 3 months at room temperature and 40°C.
