

## Confectioners Delight - Honey Drizzle Body Oil

### Are you ready to relax?

Our innovative massage oil formula does just the trick and it looks and smells like HONEY! It also has a stringy texture similar to honey - but the real magic happens when the product is applied to the skin. **Dow Corning® 3901 Liquid Satin Blend**, with its novel, never-before-seen texture and distinctive sensory profile, delivers a luxe satin-like feel. This silicone blend is mixed with **Dow Corning® FZ-3196**, and plenty of organic silicones to create the perfect massage oil blend. **Calendula Infused Oil** is known as an excellent remedy for soothing and moisturizing dry and chapped skin. **Daucoil**, an oily extract from *Daucus carota L.*, is a great addition for aging skin. A low amount of **Vida-Care USB-30F** was used to prevent discoloration in transparent packaging.

	Trade name	INCI name	Supplier	%
A	1 Dow Corning® 3901 Liquid Satin Blend	Dimethicone/Vinyl Dimethicone Crosspolymer (and) Dimethicone	Dow Corning / Univar*	70.0
	2 Dow Corning® FZ-3196	Caprylyl Methicone	Dow Corning / Univar*	6.0
	3 Ercarel TCC V	Caprylic/Capric Triglyceride	Erca / Univar*	2.0

	14 Vida-Care USB-30F	Diethylhexyl Malate, Octocrylene, Homosalate, Butyl Methoxydibenzoylmethane, Ethylhexyl Triazone	Lambson / Univar*	0.2

### Procedure (Cold process)

1. Firstly, weigh the Dow Corning® 3901 Liquid Satin Blend into a beaker and then gradually add Dow Corning® FZ-3196 to disperse it while gently stirring for 10 min.
2. Add ingredients of phase B one by one in the order listed while gently stirring after each addition until homogeneous.

### Stability

Stable at least 3 months at room temperature and 40°C.

### Comments

- Viscosity 684 cPs S2550  
\*Viscosity measured after 1 minute
- Massage body oil with an honey appearance/smell & texture
- Formula inspired from "Body Oil" (formulation CPF 02078) developed by our partner, Dow Corning.
- Some haziness may appear depending on your fragrance selection.
