

Color Doctor

Color Doctor makes house calls whenever your make up palettes are broken or hard to use. Break up the remaining color, apply Color Doctor, tamp down in your palette, and allow to dry over night. It's a sustainable way to get the most out of your make up!

Ecosense™ 3000

A readily biodegradable, non-ionic surfactant derived from natural sources.

Coconut Oil

A natural emollient which provides versatile conditioning, viscosity building, and emulsion stabilization.

dl- α -Tocopherol Acetate

Vitamin E has proven antioxidant effects, enhances moisturization, and strengthens the skin barrier.

Niacinamide PC

A very pure form of Vitamin B3, improves skin moisturization and elasticity, reduces fine lines and discoloration. Protects from UV/blue light and urban pollution.

Univar Solutions offers this suggested formulation as a representative formulation only. See the back cover or univarsolutions.com for important cautions.

Color Doctor

PHASE	INGREDIENT	WT%	TRADE NAME	SUPPLIER
A	Hamamelis virginiana (Witch Hazel) Water (and) Alcohol	90.00	Witch Hazel Organic	Univar Solutions/ American Distillery
