
Waterless Wash & Wax

Do away with the tangled water hose and messy soap buckets with this latest innovation in waterless detailing. Spray on and wipe off with a streak free and water spot free finish.

XIAMETER™ MEM- 0349 Emulsion

A 60 % actives nonionic emulsion formulated with a polydimethylsiloxane. Excellent for water repellency, water beading, and gloss improvement.

XIAMETER™ OFS-6124 Silane

Phenyltrimethoxysilane is used to make surfaces water repellent.

TERGITOL™ 15-S-3 Surfactant

Low odor surfactant used to reduce foam and enhance the stability of oil in water emulsions. Provides good detergency and solubilization of oils (HLB = 8).

TERGITOL™ 15-S-9 Surfactant

Surfactant used to reduce foam with versatile solubility characteristics. Provides excellent wetting, superior detergency, good rinseability, and is readily biodegradable (HLB = 13.3).

Mackstat DM

DMDM Hydantoin, a very effective broad spectrum antimicrobial.
