

Remove it - micellar

Don't let your cotton ball reap the benefits. A jelly-like format gives you the makeup removing benefits of traditional micellar water, but without the waste. Easily gets rid of dirt and oily makeup without stripping away moisture.

Cargill, Satiagel™ VPC 508

All-natural, transparent gelling agent capable of cold-process incorporation.

Oxea, 1,3-BG

Efficient solubilizer for providing efficient removal of oil-based makeup.

Corbion, PURASAL® MOISTXS

Skin-friendly moisturizer to maintain and replenish the body's natural moisture.

Univar offers this suggested formulation as a representative formulation only. See the back cover or <https://trends.univarsolutions.com/awestruck> for important cautions.

Remove it - micellar
