Technology

Elevance Smooth CS-110N
A non-GMO plant-based polymer manufactured utilizing a Nobel Prize winning technology that will thicken most natural and synthetic oils and emulsions. Excellent for stick formation.

LexFilm™ Sun Natural MB
Plant-based, multi-dimensional, film-forming polymer ideal for suncare, pigment dispersion, and long-wear application formulations.

SustOleo™ TL
Palm-free, unique sensory enhancer provides rapid absorption, quick drying, and a light, powdery skin-feel.

SustOleo™ TSB
Palm-free, natural solid emollient that provides unique textures. Non-greasy stabilizer for oil-in-water and water-in-oil emulsions.
