# Energize

Hair Mask

If your hair needs a deep conditioning moment that does not require a lot of work, this hair mask is made for you. Let it gently penetrate your strands, leaving your hair feeling soft, smooth and weightless. It will energize, restore and protect your hair from breakage, heat and frizz, all while adding gentle volume.

## Satiaxane™ VPC 930

Polysaccharide produced by a biotechnological fermentation process. Thickening, stabilizing and natural suspending agent. COSMOS approved.

## DOWSIL™ CE-7081 Smart Style

Amino silicone elastomer microemulsion designed to give more flexibility, bounce and hold to hair. Increases smoothness, provides long lasting hair hydrophobicity and improves conditioning by reducing hair friction for easy wet and dry combing.

## DOWSIL™ 969 Emulsion

Cationic-based emulsion of amodimethicone. Conditioning and heat protecting agent. Provides ease of styling, decreases dry combing force and provides slipperiness on wet hair.

## DOWSIL™ CE-7114 Silicone Quat MicroEmulsion

Nonionic microemulsion of a quaternized amino-functional silicone polymer. Delivers multiple benefits in hair care applications such as conditioning, reduced drying time and hair breakage, color and heat protection.

## DOWSIL™ EL-7040 Hydro Elastomer Blend

Silicone elastomer with velvet and smooth touch, compatible with a large variety of cosmetic oils (UV filters, esters, vegetable oils) as well as hydrophilic ingredients (water, glycols). Improves the rinsability of the product.
