

THE NEW **NOW**

# THE NEW **NOW** Skincare

## Complete Radiance Face Oil

### SustOleo™ DCS

Palm-free, 100% natural hydrolytically stable light emollient and slip agent with light cushion and silky after feel.

### LexFeel™ WOW-A

100% plant-based, fast spreading, partially volatile emollient. Non-greasy, ultra-light feel imparts smoothness to skin. Derived from castor oil and sugarcane.

### BioEstolide™ 30

Multifunctional biobased oil that serves as an emollient with enhanced stability and exceptional moisturization characteristics. Offers a light, satiny feel on skin and hair.

### ALL-Q®

#### (Coenzyme Q10) plus

A bioactive mix of coenzyme Q10 and Vitamin E acetate in a cosmetic carrier oil. ALL-Q Plus is the ideal active ingredient for several key skin care applications. It protects

the skin from lipid peroxidation, and strengthens the cell viability by increasing cellular ATP production. ALL-Q Plus prevents collagen degradation by inhibiting MMP-1 expression. ALL-Q Plus makes the skin look and feel firmer, softer and well-toned.

### Dowsil™ 5562

#### Carbinol Fluid

This carbinol-functional fluid has a novel compatibility profile for use in color cosmetics, face and body care, sun care, underarm and hair care applications.

### ReGeN-oPhyt®

A 100% naturally-derived bioactive for anti-aging skin care applications. Offers skin protection from UV radiation and pollution, and oxidative stress. Acts as an antioxidant, encouraging skin regeneration and smoothing properties.

#### Formulation Process

Optimized, low heat process

#### Marketing

Multi-benefit high performing product

#### Performance & Innocuity

Multifuntional high performing safe synthetic ingredients

#### Sustainability

Biodegradable & 100% natural ingredients

#### Ethics

Traceable and sustainably manufactured ingredients

#### Water

Anhydrous formula

PHASE	TRADE NAME	INCI	SUPPLIER	Wt%

## PROCEDURE

1. Combine phase A ingredients. Heat to 40°C with mixing to melt and solubilize solids.
2. Turn off heat and add phase B ingredients to phase A with mixing.
3. Add phase C ingredients with mixing.
4. Add phase D to achieve desired color.

## PROPERTIES

Viscosity= 16 cP (LV-01, 50 rpm, 25°C)  
Color: clear, olive green
