Your local supplier  
of the broadest  
product portfolio  
**offering superior  
service and  
reliability**

**In your business,  
it's critical for you  
to have the right  
chemicals, in the  
right place and  
at the right time**

In today's dynamic market it's important that you work with someone who knows your business. You need local experts who have access to an unmatched global portfolio of high-quality products powered by an industry-leading supply chain.

### **Univar Solutions has you covered**

At the heart of what we do lies our ability to truly get to know you and your business, giving you peace of mind that only comes from a close working relationship with someone you trust. From small custom batch orders to regularly scheduled bulk deliveries, personalized attention from our team can help ease the buying process. Longtime relationships with leading local and global suppliers of more than 6,000 products means our supply chain has you covered, driving efficiencies from which you can benefit.

### **We're local to you and the entire nation**

Local expertise is found at every level. All of our 140 warehouses and distribution centers across USA and Canada, including those near you, are equipped with their very own fleets, capabilities, and dedicated drivers. For years, they have safely and reliably serviced the asks and requirements of all the customers in their local area.

### **We want to be your valuable and trustworthy partner**

For your business, relationships matter. When it comes to your business, you can count on our relationship-based approach—we work with you personally at every point, including:

- Teams of account managers, product managers, quality control specialists, and drivers who know you and your market and truly know your business.
- Responsive and reliable customer care professionals to whom you can talk directly about delivering what you need, when you need it.
- Distribution centers that are designed to function as an extension of your operations for warehousing, blending, and packaging.
- Technical experts who respond to your non-routine questions and challenges.

### **We have the capabilities your business needs**

- 140 branches across the U.S. and Canada, each one equipped to serve its local market.
- Private fleet of trucks and railcars providing safe and timely deliveries.
- Growing portfolio of more than 6,000 chemicals and ingredients.
- Proven reliability and quality service at every touch point.
- Blending, packaging, warehousing, and other services to support your business.

Our unmatched chemical and ingredient portfolio covers almost every need your business has from commodity chemicals to solvents, silicones, oleochemicals, and many more.
