
A library of solutions for your **excipient supplier** audit needs.

We understand that excipient supplier audits can be costly and time-consuming for drug and nutritional supplement manufacturers. With a growing focus on the compliance of manufacturers and the increasing adoption of the joint International Pharmaceutical Excipients Council (IPEC)/Pharmaceutical Quality Group (PQG) Good Manufacturing Practices (GMP) audit guidelines, the monitoring of excipient production continues to receive increasing regulatory attention, resulting in increased excipient reviews by the FDA.

Univar Solutions Supplier Audit Library can help you navigate the complexities of the supplier excipient auditing process. We deliver audits using the IPEC/PQG GMP Guide for pharmaceutical excipients, the broadest excipient portfolio from industry leading producers.

Solutions for your audit requirements.

Excipients are used in nearly every drug and/or nutritional supplement formulation, and manufacturers can be faced with an enormous volume of audit requests. As a result, manufacturers have limited audit dates available and may even charge a fee to perform an audit for all but their largest customers.

Through our certified third-party service, Univar Solutions conducts audits of major excipient partners. The library's audit packages include the initial audit, observed non-conformances and the excipient producer responses. Audits are scheduled on a three-year rotation, or sooner if required, and include comprehensive reporting and customized access when and where you need it.

Univar Solutions supplier audit library, expertise and guidance, provide an end-to-end solution for the complex excipient audit process, and helps free your internal regulatory resources.

SUPPLIER	PRODUCT(S)	AUDIT DATES			
Calumet Specialty Products	Mineral oil and petrolatum – Karns City, PA	June 2011	June 2014	September 2017	September 2020
