

CYANOBACTERIA CONTROL

Certified to NSF/ANSI/CAN 60

- **Eliminate harmful algal blooms in 24-36 hours after only one application**
- **15-30 day durational control per application**
- **Rapidly dispersing for quick and easy application**
- **No immediate cell lysis**
- **Taste & odor geosmin control**
- **Cost-Effective Solution**
 1. *Half the price of peroxide-based products*
 2. *Longer filter runs*
 3. *Reduced carbon usage*
 4. *Minimal labor required per application - multiple applications per week not required*
 5. *Sedimentation basins stay free of unsightly algae*
- **Environmentally Friendly**
 6. *NSF/ANSI 60*
 7. *Only 60-120 ppb*
 8. *Copper remains in solution and biologically available*
